	rtions of the project that are seis le section 74.5(b)(2).	of an existing structure that consists of the
In order to receive the exclusion, this claim form must b All documents necessary to support the exclusion must completion of the project.		
The property owner, primary contractor, civil or structur of the project that are seismic retrofitting components, a of the project, the building department shall report to the components.	as defined by Revenue and Taxation	n Code section 74.5(b)(2). Upon completion
For purposes of section 74.5(b):		
 (1) "Seismic retrofitting components" means seismic retrofitting technologies. (2) "Seismic retrofitting improvements" means retrofitting from structural or nonstructural components of an arrow of the seismic retrofitting technologies. 	ng or reconstruction of an existing b	ou <mark>ild</mark> ing or structure, to abate falling hazards

THIS EXCLUSION EXPIRES UPON CHANGE IN OWNERSHIP OF THE PROPERTY.

(3) "Improvements utilizing earthquake hazard mitigation technologies" means improvements to existing buildings identified by a local government as being hazardous to life in the event of an earthquake. These improvements shall involve strategies for earthquake protection of structures. These improvements shall use technologies such as those referenced in Part 2 (commencing with Section

cornices, hanging objects, and building cladding that pose serious danger. "Seismic retrofitting improvements" also means either structural strengthening or providing the means necessary to resist seismic force levels that would otherwise be experienced by an existing building or structure during an earthquake, so as to significantly reduce hazards to life and safety while also providing for the substantially safe ingress and egress of building occupants during and immediately after an earthquake. "Seismic retrofitting improvements" does not include alterations, such as new plumbing, electrical, or other added finishing materials, made in addition to seismic-related work performed on an existing structure. "Seismic retrofitting" includes, but is not limited to, those items referenced in
